

REMARKS

This amendment is being filed in response to the Office Action dated February 13, 2009. The applicant has amended the specification in accordance with the Examiner's suggestion. Support for the amendment can be found throughout the description and drawings and more specifically at Figures 5 and 6, and page 12, line 14 – page 13 line 6. Claims 1 – 9 are allowed and no new matter has been added. Entry of this Amendment is respectfully requested.

Objections to Drawings

The Examiner has objected to Figure 5 as failing to comply with 37 C.F.R. § 1.84(p)(5) because it does not include reference sign “62” and “I”. Applicant respectfully traverses this objection and notes that Fig. 5 does in fact include both of these reference signs. Applicant further notes that the reference sign “I”, more specifically, reference sign “I-I” is described in the specification at page 12, lines 16-17 as denoting the line along which the cross-sectional view of the array of Fig. 5 (i.e., Fig. 6) is depicted. Moreover, applicant has amended the specification at page 12, line 31 to include a description of reference sign “62” as denoting (in a particular embodiment) the space between the horizontal sections of the double cross configuration of a flexible foil 52.

In view of the foregoing amendments and remarks, applicant respectfully submits that Figure 5 complies with 37 C.F.R. § 1.84(p)(5), and respectfully requests allowance of this application.

Respectfully submitted,

/Todd A. Holmbo/
